The CSAs will use the funding for a variety of projects such as creating subsidies to enable lower income households to take part in their CSAs and purchasing supplies, such as tents.

2. New Food Magazine What does soul music, wireless technology and provocative advertising have to do with changing the food system? Find out in REAP/SOW (www.reapsow.org), a new youth driven magazine for the sustainable food movement! REAP/SOW is a creative space for youthful thinkers and doers working to build a healthier, more sustainable food system.

4. Did You Know? There is now a Meatrix II. The Meatrix is an online Flash™ animation movie produced by the Sustainable Table division of GRACE (Global Resource Action Center for the Environment) and Free Range Graphics which takes a humorous look at the serious problems of factory farming. The Meatrix I was released in 2003 and within less than 3 months over 4.2 million people had watched the movie. In March 2006, The Meatrix II: Revolting, which focuses on the industrial dairy industry, was released. You can view both of the movies at www.themeatrix.com and www.themeatrix2.com.
